Profile

Learning new things and facing new challenges are two main reasons for me to choose computer science as my major and Front End developing as my career. Right now, I am a Ph.D. student in computer science at [Sharif University](#) and a front-end developer in the [Snapp](#) team.

Employment History

Front-end Developer - Snapp Food, Tehran, Iran

August 2019

I started my front-end journey in [SnappFood](#) Team. SnappFood is Iran's leading online food ordering service with more than 2000 restaurants. I am in the [Menu Squad team](#). We develop the mobile app with React/Redux and we use Saga for the Async requests, and in the website, we use Next.js /Redux-toolkit /styled-components and TypeScript.

Education

Computer Science - AmirKabir (Tehran Poly technique), Tehran, Iran

September 2011 - September 2015

I had my Bachelor's degree at [AmirKabir](#) (Tehran Poly technique) which is one of the best universities in Iran.

Computer Science - AmirKabir (Tehran Poly technique), Tehran, Iran

September 2016 - December 2018

I had my Master's degree at [AmirKabir](#) (Tehran Poly technique) which is one of the best universities in Iran.

Computer Science - Sharif University, Tehran, Iran

September 2020

I am a PhD student at Sharif University.

Projects

Menu of Restaurant - Snapp Food, Tehran, Iran

September 2019

SnappFood is the largest online food ordering and grocery shopping platform in Iran. It's one of the most important subsidiaries of IIG Holding such as Snapp! largest ride-hailing app in the Middle East. It uses a web-view tool in native applications due to keeping all the product stack in React.

☰ Projects

I am in Menu Team, we are responsible for:

1. Restaurant Menu

- Add To Basket Action
- Add Coupon According to user's Selection
- Add Toppings for Some Products Like Burgers (I prefer my Burger with more Ketchup sauce:)
- Search in Menu
- Users can see the comments
- Users can see Rates
- Users can see the Information page of the restaurant
- Users can see the product page

As a member of the Menu Team for 2 years, I had different tasks on all parts of the Menu.
